

Stenabolic SR9009 10 mg 100 tabs Rus Bio

Description Rus Bio Stenabolic SR9009 10 mg 100 tabs

SR9009 Rus Bio 10 mg 100 tabs also know as Stenabolic isn't a SARM but its often promoted as one. The product showed that it can relieve anxiety, support your endurance and reduce the inflammation. It also burns fat and improves cholesterol levels. Its main point is that it has fat metabolism improving properties, so it affects fat storage cells and macrophages while also increasing muscle growth and

endurance. Since it is not prohormone, it doesn't aromatize to estrogen and doesn't suppress natural testosterone production. You won't need a PCT after Stenabolic SR9009 cycle.

ADVANTAGES

Stenabolic SR9009 Rus Bio does not work like SARMS or anabolic steroids do, and it is a non-hormonal compound. This means that it will not affect your pituitary glands, prostate, or Leydig cells at all. Actually, it works in a similar way to GW-501516 (Cardarine), but in certain aspects, it may be even more effective.

Specifically, it has been found in studies carried out on mice that Stenabolic Rus Bio SR9009 activates Rev-ErbA – a protein belonging to the family of intracellular transcription factors within the alpha and beta receptors, which separate genes. Additionally, the Rev-ErbA protein helps regulate circadian clock and the breakdown of cartilage. As a result, SR9009 Rus Bio increases exercise capacity via mitochondria in the skeletal muscle. Besides, according to NCBI studies, Stenabolic Rus Bio SR9009 has been shown to balance cholesterol levels and help safely burn fat and glucose in the muscles.

EFFECTS

Rus Bio Stenabolic SR9009 helps users lose fat weight and increases endurance. SR9009 will build your muscles and work on your metabolism even if you're not training. The product also has an anti-inflammatory effect and it's the best product for maintaining muscle protection. It also lowers cholesterol levels and can prevent atherosclerosis as I also accelerate regeneration. SR9009 doesn't help just physically, the product helps with anxiety and works similar to benzodiazepines.

SIDE EFFECTS

Do not exceed recommended dose. Keep it out of the reach of children. The product is not mean to be used by people younger than 18 years old.
