

Andarine S-4 25 mg 100 tabs Rus Bio

Description

Rus Bio SARM Andarine (S-4)

Andarine by **Rus Bio SARM**, also known as **SARM S4**, together with Ostarine, is a selective androgen receptor modulator (SARMs). The scope of Andarine S4 is clearly during dieting or body composition .

Here Andarine Rus Bio is compared with the well-known anabolic and androgenic competitor steroids Stanozolol and Oxandrolone. Andarine users speak of increased fat burning without muscle loss.

Advantages of ANDARINE RUS BIO (S-4) Rus Bio SARM

- Supports you in your competition preparation and diet
- Increases fat burning without muscle loss
- Supports your mental state during a cycle with anabolic steroids
- is similar in effect to oxandrolone and stanozolol, but without its side effects
- Leads to a huge increase in strength, which is beneficial during a diet

ANDARINE S4 RUS BIO EFFECT

In the USA in particular, Andarine currently seems to have displaced stanozolol from the arsenal of various competitive athletes, as it does not dry out the joints, which is one of the more unpleasant side effects of stanozolol use.

In addition, andarine, similar to stanozolol and oxandrolone, also increases body strength and provides an increased sense of well-being.

ANDARINE (S-4) RUS BIO SARM recommended use:

Recommended use

Those primarily interested in developing quality muscle mass have been known to use between 50 and 100 mg of S4 Andarine per day, divided into at least two equal doses per day.

If you want to get in shape with the help of Andarine (Body Recomposition), you need less, 50 mg S4 per day is standard here.

Experience shows that the maximum recording time is between 8-12 weeks.

Before taking this product, consult your doctor. Do not exceed the recommended daily dose. This product should only be consumed by healthy adults over the age of 18. Food supplements should not be used as a substitute for a balanced and varied diet. Keep out of the reach of children. After opening, store in a cool, dry place.

Andarine S4 side effects:

In the bodybuilding scene, Andarine is used as a side-effect-free alternative to steroids.
